Monthly Report for November 2022:

Personnel: Through out the month the department worked diligently to make sure all of the department training records, and other required paperwork was complete to meet the Bureau of Labor Standards requirements

Training: Several training sessions were held throughout the month in addition to our regular department trainings. Georgiann Fleck, Todd Perreault, and Glen Garland all participated in two training sessions at Pleasant Mt along with Pleasant Mt staff. It was great training and great networking opportunity. Glen also had 2 Bureau of Labor classes in Augusta

Apparatus: Tank 4 had to go to the E-one dealer in Brunswick for replacement of some electric solenoids that control the fill/dump valves.

Buildings: Several small leaks in the roof at Central were repaired by building maintenance personnel. One panel of the metal roof has significant corrosion, and we are researching the pattern/brand to see about getting a replacement panel.

Activities: After some cancellations due to weather department personnel were finally able to conduct our fire prevention activities with the Stevens Brook Elementary students. Over 300 students saw the program and received handouts. Six department personnel spent several hours of prep time and about 4 ½ hours of delivery time at the school. Great job by all! Department staff met with staff from the new Woodlands Memory Care Center to work on policy issues for fire department response to the property and arrange a familiarization tour for FD personnel

Respectfully Submitted,
Glen Garland, Fire Chief
