

Recycling Committee Meeting Minutes

DATE: Thursday, September 10, 2020

Attendees: Kate, Bob, Therese, Sally and Donna

Call to Order at 7:04 PM

1. Minutes from August meeting were accepted as submitted .
2. A brief discussion was held related to the Tuesday, Sep. 8 Bridgton Select Board meeting and the outcome. A workshop with the Board will be held on Oct. 6 at 4PM at the Town Hall.
3. The committee discussed the issues to be presented at the above workshop and the needed materials. These are as follows:

Commercial Waste Haulers:

- a. Copies of other town's requirements will be produced.
- b. The current but inactive Waste Haulers Ordinance will be addressed.
- c. Recommendations for possible revisions will be offered to include licensing and a fee structure. Bob will assist Sally with understanding past weight and nature of the waste being generated by commercial haulers.

Multisource Recycling:

The committee wants to bring this up but schedule another time with the Board. That will allow us to gather the most current data to better make the case for retuning to a multisource system. We would like to have this settled, supported by the town and ready to present to voters in June.

Donna LTE: All agreed that Donna's letter was ready to submit to The Bridgton News. Thank you Donna!

Next Meeting: Thursday, October 8, 2020 via Zoom
