

Emergency Management Agency (EMA) Monthly Departmental Report

May 2021

The month of May was spent organizing and preparing for the intern to arrive. I started off the month with an Emergency Operations Planning meeting and regular Emergency Managers meeting discussing our goals for the summer.

I met the intern and gave her a brief tour of the town office and outline of the work to be done though-out her tenure.

I met with both Field Electric and the propane company in reference to the town garage generator not starting automatically and further review is needed.

Ended the month with attending the retirement luncheon for Fire Chief Harriman.
