

Emergency Management Agency (EMA) Monthly Departmental Report

June 2021

In the month of June, our intern Madison began working on our Emergency Operations Plan that Cumberland County EMA provided as a template. We have made progress on the plan and discovered some areas that needed to be added to the template – but making progress, nonetheless.

We took Madison down to Cumberland County EMA for an in-person meeting with county representatives and a tour of the office.

We received training on the Mobile Command Center that we received through the Keep Me Healthy Grant.
