

Emergency Management Agency (EMA) Monthly Departmental Report

August 2021

During the month of August, the office of emergency management continued finalizing the EOP, the COOP and SHELTERING plans.

The office of emergency management has been very fortunate to have an intern this summer and attended an end of summer internship outing at the Blaine house.

We will get to continue to have her with us for one day per week for a while to continue finalizing all the plans currently being worked on.
