Halloween 2021:

Our Haunted Town Hall and Ice Rink Fundraiser raised \$2,259 for scholarships to Summer Camp and Before and After School Care!

On Halloween weekend the Recreation Department teamed up with Bill Adams of Play 207 to create this awesome event in the Haunted Town Hall and Ice Rink. The Town was filled with children's activities in downtown Bridgton, so the idea came about to gear a Halloween event towards pre-teens, teens, and adults.

With 6 weeks of planning and 65 volunteers spaced out through the weekend we created a scary walk that included the Town Hall, Ice Rink, and a small trail behind the Town Hall parking lot. Laser Tag was added as a secondary option to just the walk thanks to Play 207.

I would like to thank all the individuals that came out to scare collectively there were about 20 people from the community that had the pleasure of scaring people as they walked through. I want to thank the Bridgton Academy Soccer team who dedicated their whole Friday night to the event, members of Lake Region Boys Soccer and Football were on hand to help too. I would like to thank the Chamber of Commerce for providing some zombies for the event! I would also like to thank the Public Works Department for going out of their way to help us with some props for the "abandoned street"!

We can not forget to thank Campfire Grill for letting us use all their Halloween decorations! A big thank you to the Recreation Department staff for coming through and working different shifts throughout the weekend to keep everything in order behind the scenes.

Finally, to Bill Adams of Play 207 who was the man behind the epic "Fallout Shelter Elevator" he created specifically for the event. Bill spent a lot of time with us planning out this project and was a great partner throughout!

It truly took a community effort to put on such a large event. We hope everyone who went through had a great time and We look forward to next Halloween!

# Learn The Basics Ice Skating Free Community Program

Learn to Skate is a program to help children (K-5) learn the basic fundamentals of ice skating. Before you can score a goal in hockey or perform a toe loop in figure skating, leaning how to move on the ice is extremely important. By incorporating fun, games, and enthusiasm, participants will learn the basics of skating. This program works closely with Bridgton Academy, and the Lake Region-Oxford Hills-Fryeburg Academy Ice Cats.
