Monthly Report for December 2021:

Personnel: The department is in the process of getting our new hires through the orientation process, getting gear issued, physicals etc. We look forward to having a few more pair of hands to help out for sure.

Training: The department is looking at online computer based programs that we could use for our administrative type training such as the training required by the Bureau of Labor Standards and other training that can be done online or with some online along with some hands on time. Fire extinguishers would be one example of this type of training. We believe this will lead to greater compliance on the mandatories as personnel can complete the training on their schedule vs having to be at the station at a specific time and date.

Apparatus: The department received one bid for \$800.00 for our 1991 firetruck. This bid was rejected, and I informed the manager that I would like to put it out to a wider audience and put a \$2500.00 minimum on the bid. That has been posted and the due date for bids is January 6, 2022. I will update the Board in January on the results.

Buildings: Nothing to report

Activities: December is always a light month for training due to the holidays. Call volume for the month was right on our average of just over 1 call per day, with 33 total calls for the month.

Respectfully Submitted,
Glen Garland, Fire Chief
