

# Meeting Minutes

---

**Curfew:** Request Chief Jones to join Committee at next meeting in June to present the Department's view on the need for the Curfew Ordinance and also to provide as much detailed supporting data on this need as is available. Specifically requested is any data going back more than the 3 years already provided (in order to see any trends); more details on the typical nature of the use of the Curfew Ordinance by officers (general anecdotes), and how rescinding the Ordinance would effect the Department (are there alternate statues / policies that could be used to deal with juveniles out after 11 PM). In summary, how the Department and the Town would be effected if there was no Curfew Ordinance.

**Fire Works Ordinance:** No further action required by the Committee.

**Dog Ordinance:** After some discussion, it was determined that additional review was required to compare the current iteration from the Attorney with the last document approved by the Committee. Staff was requested to provide both for review (to allow a side-by-side comparison) at the next meeting.

**Food Trucks & Food Truck Parks:** Preliminary discussion of how to handle this emerging issue in terms of any needed regulations and whether this should be addressed by specific new ordinance, as part of an amended Land Use Ordinance, or both.

**MISC:** Timing is for the above 3 ordinances to be ready for the November ballot. Nothing definitive was decided about Food Trucks or Food Truck Parks. The Parking and Traffic Ordinance is next on the agenda for the Committee.
