

# Task Force

## Welcome to Meeting 01 of the 2024 Comprehensive Plan Update Task Force!

We are excited to get going on the effort to update Bridgton's Comprehensive Plan together with the townspeople we will build upon our past and project the town's hopes and desires for the next ten years to come.

At this meeting we will 1) lay out the mechanics of the Task Force work plan and 2) set the focus on sustainability, resilience, and equity. These three pillars will frame future development designed to uplift Bridgton following a disruptive pandemic that generated concerns surrounding business continuity, rapid growth that threatens to leave some in our community behind, and the desire to capture unprecedented funding available through federal, state, and regional channels.
