Monthly Report for June 2023

Personnel: Department personnel continue to train on many topics related to what we do on many of our responses. Topics include water supply, vehicle extrication, hose advancement. The department continues to work on training drivers for the various apparatus. We will be sponsoring, with Saco Valley Fire, an Emergency Vehicle Operators Class on the weekend of July 22 and 23. This is a 16 hour class with both classroom instruction and actual driving time through a cone course to build confidence. We also welcomed a new member in June, Katy Larrabee. Katy want to train as an interior firefighter as soon as a class is available.

Equipment: The last of our annual equipment tests were done on June 14 & 15 with the completion of our SCBA bottle hydro tests. Each year we are required to conduct testing on our fire pumps, ground and aerial ladders, hose and SCBA to meet Bureau of Labor requirements. We will soon be starting the testing cycle again with pumps usually in September. The department also received the donation of a full pallet of bottled water from Poland Spring for use at emergency scenes. We want to thank them for their continued donations to our department.

Code Enforcement: As Chief I continue to work closely with both the Planning Board and CEO on matters before them for upcoming projects. There have been many projects with some being quite significant in size and scope and the department will continue to work to ensure that the new development occurring in town is both safe and meets code.

Respectfully submitted,
Glen Garland, Fire Chief

Bridgton Fire Department
